

Germ Fighter Comic Strip

Teacher instructions:

This activity is designed to play out how their bodies build strong immune systems while they sleep.

Hand out the blank comic strip worksheet and ask students to create a story about how the immune system grows stronger while they sleep. Use these examples to get their ideas flowing:

I slept well.

My germs
are zapped!

I can run fast!

I went to bed
on time.

My body is
fighting germs.

I feel great!
